If your target is to nail down some new touches for the home this spring, sit down and take aim: we've gathered some handsome accessories for every guy's home, from a handsome sofa signed by André Arbus to a tequila that's fit a king—or a McQueen.

Ladylike Touches

Horst P. Horst photographed this model—in Cartier jewelry and a pink sheath, with scarf in hand—for an April 1959 issue of *Vogue*. A lady knows it's all in the details, especially when those details are a fine silk scarf or wraparound serpent bracelet. Remember that the softest touch can make or break your look, whether it's in fashion or interior design—which is why we sought out the latest finds sure to please just about any woman or her abode.
