

Go Big & Go Home: Cool Interiors to Covet this Month

Maximalists, pay attention: eight bold and brilliant pieces to brighten up your property

Whether you're prepping a new property or freshening up a tired space, make a statement with hyper-opulent interiors and supersized proportions. Achille Salvagni's off-kilter silhouettes provide an element of unpredictability and channel nature's disregard for symmetry; Ashley Hicks makes a case for playful colour palettes and trophy-like sculptures. Mirrors and lighting have the power to transform a space, while tongue-in-cheek (or pill-in-teeth) graphic textiles such as Jonathan Adler's cushion collection makes a room look less calculated.
